MUNYARADZI LLOYD MAKOSA

Senior Full-Stack, AI Systems & Mobile Product Engineer · Independent Contractor Seeking Full-Time Role

Cape Town, South Africa (Open to Remote / Relocation) · +27 65 894 8676 · munya@munyamakosa.com · munyamakosa.com · github.com/farmhutsoftwareteam · linkedin.com/in/makosa-munya

---

Senior Full-Stack, AI Systems & Mobile Product Engineer with **7+ years** of experience shipping production SaaS platforms, multi-agent LLM workflows, and native iOS/macOS applications. **Current Status & Career Goal:** Since 2024, operating as a full-time **Independent Product, AI & Mobile Engineering Contractor** (via **Upwork Top Rated Plus** & **Studio 82 — $93,500+ USD** in certified annual contract billings; **11,600+ commits** and **5,500+ PRs** shipped across 2024–2026) embedded as a lead/core engineer with US, European, and African teams. **Now seeking to transition from independent contracting into a single permanent, full-time Senior or Staff Full-Stack, AI Systems, or Mobile Product Engineering role.** Co-founder of *Farmhut Africa* (**$100,000 Hult Prize Global Winner**, **Techstars**, **Anzisha Prize Fellow**, ~300,000 users) and creator of open-source developer tools (*Atelier*, *Skillshed*, *AbletonMCP Extended*).

PROFESSIONAL EXPERIENCE — INDEPENDENT CONTRACTING & LEADERSHIP (2018 – PRESENT)

Hubflo *(Independent Contract · Hubflo Studio, Work by Hubflo / WinPal, Hubflo Inbox, Seal AI & FirmAgent)* Remote (US / France)
Contract Product & AI Systems Engineer (7,240+ Commits · 2,350+ PRs across 5 Production Products) **Apr 2025 – Present**

- **Hubflo Studio (*hubflo-workflow* — 1,010+ commits, 1,337+ PRs):** Architected the multi-tenant AI workflow & automation builder and **"Flo"** conversational AI agent launched to all Hubflo workspace owners at `/studio`, integrating Inngest durable execution, Supabase RLS, Composio, HubSpot, Pipedrive, Slack, Gmail, Google Drive, OneDrive (approved-folder security), and SmartDocs.
- **WinPal / Work by Hubflo (*work-by-hubflo* — 1,760+ commits, 404+ PRs):** Built and shipped the cross-platform iOS/Android (`Expo / React Native`) and web application enabling SMBs and contractors to generate AI visual renders, estimates, jobs, multi-page PDFs, and invoices with Stripe, RevenueCat, Supabase, PostHog, and full EN/FR localization.
- **Hubflo Inbox (*hubflo-inbox* — 1,160+ commits, 565+ PRs), Seal AI (sealhq.ai — 1,010+ commits) & FirmAgent (2,300+ commits):** Built AI-powered shared inbox & Gmail/calendar sync with Trigger.dev; an interactive B2B proposal platform with streaming Slide Agent multi-action editing, view analytics, and e-signatures; and AI voice/chat agents for accounting firms (Twilio voice calls, OpenAI SDK, Calendly, Stripe).

Munga Plains / Munga Travel *(Independent Contract · mungaplains.com & munga.travel)* Remote (Botswana / Zimbabwe)
Contract Lead Platform & AI Engineer (2,172+ PRs/Issues in Munga-AI/munga-ai) **Jan 2026 – Present**

- Sole/lead platform engineer for a luxury yoga safari retreat camp and mobile safari/expedition operator across Chobe National Park, Savuti, Moremi Reserve (Okavango Delta, Botswana), and Matopos (Zimbabwe), leading the multi-tenant operating system onboarding *Munga Plains* and *Munga Safaris*.
- **Botswana Department of Tourism Compliance & Bed-Levy Automation:** Engineered the 3-step statutory tourism filing workflow, citizen/resident vs. non-resident guest tracking, room-night and maintenance closure accounting, per-company payroll employee rules, BWP 10/night bed-levy calculation, and accommodation/bar/safari activity revenue splits.
- **Safari Retreat Booking Engine, Partner Lodge & Flight Supplier Portals:** Built direct/B2B retreat booking flows, tracking/discount codes, partner lodge room-block inventory & monthly Trips/Room Needs calendars, and separated **Ethiopian Airlines** flight supplier confirmation portals (`ethiopian-portal`).
- **Tourism CRM, AI Triage & Multi-Currency Safari Finance:** Built the pursuit/engagement CRM pipeline, **"Bulma"** modular batch event invitation engine, **"Munga Assistant"** internal AI bug-triage bot, automated tax invoice PDFs, advance-deposit-to-final-bill reconciliation, **BURS VAT** return filing, **FNB Botswana** bank feed alerts, **Wise** cross-currency transfer accounting, and **Stripe / DPO Pay 3DS / WeTravel** payment gateways.

StrongTrak Inc. / GarmanCorp *(Independent Contract · Golf Circles, MyTrakrr & Talking Treasure)* Remote (US)
Contract Lead Mobile & Full-Stack Engineer (208+ PRs across iOS, Apple Watch & Web) **Jul 2024 – Present**

- **Golf Circles (173+ PRs):** Architected the iOS (`Expo / React Native`) and web (`Vite, React, Hono, Supabase`) social golf foursome scheduling platform featuring automated backup player promotion, configurable Node weather worker notifications, programmatic SEO enrichment across 12,000+ golf courses (OpenStreetMap + scorecard extraction), and RevenueCat + Stripe Pro subscriptions.
- **MyTrakrr (35+ PRs) & Talking Treasure:** Built a 12-screen iOS & Apple Watch workout tracking app with BLE/NFC gym equipment sensor pairing, compact `int4` dataframe set telemetry, custom SVG exercise visualizations, and an AI fitness coach, plus an iPhone NFC voice storytelling app with ASCII-mirroring tag validation.

Byrna Technologies (NASDAQ: BYRN) *(Independent Contract via Upwork · 1,604 Billed Hours)* Remote (US)
Contract Frontend Lead — Retail POS & Commerce Platform (730+ PRs across byrna/pos-front & byrna/commerce) **Aug 2024 – May 2025**

- Led 4 frontend developers migrating Byrna's physical retail stores (Las Vegas, Nashville, Scottsdale, Salem) from Shopify to a custom **Saleor GraphQL + React Native iPad POS** and Node.js commerce backend deployed on Azure Web Apps (shipped through v1.3.2).
- Engineered offline-capable multi-store channel switching, complex promo/discount and order refund workflows, XML thermal receipt printing, and an open-source payment terminal simulator (`payment-terminal-mocker`).

Freyt365 & Studio 82 Client Engineering *(freyt365.com · s82.studio · Rate.com · HSTV · Verde-Tech)* Southern Africa / US / Remote
Co-Founder & Lead Platform Engineer (Freyt365) · Principal Consultant (Studio 82 & Upwork) **Oct 2023 – Present**

- **Freyt365 (freyt365.com — 120+ PRs in *freyt365-v2*):** Co-founded and architected a Southern African cross-border freight and diesel fuel fintech platform, shipping a verified **WhatsApp AI tool assistant**, native **WhatsApp Flows for diesel orders & UNO fuel station voucher photo rendering** (Livingstone corridor), and an operator cockpit.
- **Rate.com Lead-Gen & Analytics (102+ PRs, 2024–2025), HSTV (140+ commits, 2023–2024) & Verde-Tech Bulto (70+ commits, 2024):** Built high-conversion mortgage/refinance lead-gen funnels with OTP phone verification and PostHog/Supabase pipelines (`rdotcom-leadgen-0.1`); a mobile/web video streaming platform with Azure Blob Storage SAS direct uploads (`HSTV`); and a **Rust + Python** GraphQL agricultural credit-scoring API (`Bulto`).

Farmhut Africa *(Techstars-Backed · Featured on CNN Connecting Africa)* Harare & Bulawayo, Zimbabwe
Co-Founder, CTO & Product Lead (150+ Commits across 6 Microservices) **2019 – May 2024**

- Co-founded an AI and WhatsApp-powered agricultural marketplace connecting rural smallholder farmers directly to buyers; scaled to **~300,000 users** with the Zimbabwe Farmers Union, raised **$250,000+**, and built Node.js/Express & Python AI backends (OpenAI Vision crop disease diagnostics, dynamic pricing, and haulage matching).
- Won the **$100,000 USD Hult Prize Global Award (2021)**, named **Anzisha Prize Fellow (Top 26 African Entrepreneurs)**, and recognized by **MIT Solve** and the **UN75 Award**.

Earlier Engineering Roles UK & Zimbabwe

Kwingy (UK) (*Co-Founder & Technical Lead*, kwingy.com, 2022–2024: Next.js, React Native, Hono, and Supabase delivery for UK/African clients) · **Raysun Capital** (*Lead Developer — Loan Management System*, 2019–2020: credit risk scoring and portfolio management in React, Node.js, and PostgreSQL) · **Zimbabwe Yellow Pages** (*Software Developer*, 2018–2019: print-to-digital directory migration).

SELECTED INDEPENDENT PRODUCTS & OPEN-SOURCE SYSTEMS (VERIFIED LIVE DEPLOYMENTS)

- **Atelier (*work-for-claude-code* — 370+ commits, v2.11.6):** Native macOS SwiftUI/SwiftTerm companion workspace for Claude Code & Codex across 40 Apple-notarized Sparkle releases, featuring plain-English file diffs, live localhost preview, 93 one-click vetted skills, and scheduled routines (atelier.munyamakosa.com / work.munyamakosa.com).
- **Khayalo (khayalo.com — 160+ commits, 257+ issues/PRs):** Multi-tenant AI customer service, lead follow-up, and content system for Southern African law firms, clinics, and insurers, featuring WhatsApp/SMS human-in-the-loop approval flows (Twilio webhooks) and calendar availability tools.
- **Skillshed (skillshed.munyamakosa.com — 40+ commits):** Curated library of 81 vetted AI agent skills across 6 packs with a zero-dependency static prompt-injection scanner (`scan-skills.mjs`) and LLM evaluation benchmarks lifting pass rates from **85% to 97%** on PostgreSQL RLS tasks.
- **AbletonMCP Extended (PyPI `v1.0.0`, 30+ commits) & Supabase Migration Doctor:** 38-tool bidirectional Python Model Context Protocol (MCP) server for Ableton Live over TCP sockets, and a TypeScript CLI diagnostic tool for healing PostgreSQL schema-vs-migration drift.
- **Shipped Consumer iOS Apps & Web Products: Nurvy** (App Store), **Nomm** (App Store), **Ten-S** (App Store), **Stubs** (stubs.munyamakosa.com — 80+ commits, iOS/Expo football match stub tracker), **Menyu** (menyu.site — restaurant QR menu SaaS), **CuePoint & Crates** (dj.munyamakosa.com — Claude DJ tracklist & crate intelligence), **Rackup** (rackup.money), and **Dumbshirts 3D** (dumbshirts.co.za).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES2024), Swift, Python, SQL (PostgreSQL), Rust, HTML5, CSS3, Bash

AI & Agentic Systems: Model Context Protocol (MCP), Anthropic Claude API, OpenAI API, Claude Code & Codex SDKs, LangChain, Composio, LLM Evals, Prompt-Injection Security, RAG

Frontend, Mobile & Desktop: React, Next.js (App Router), React Native, Expo, SwiftUI, AppKit, SwiftTerm, Vite, Tailwind CSS, Three.js / WebGL

Backend, Data & Infrastructure: Node.js, Hono, Supabase (PostgreSQL, RLS, Edge Functions), Inngest, Trigger.dev, Saleor GraphQL, Django, Express, Docker, Vercel, Azure, Cloudflare, Stripe, RevenueCat, Wise & WhatsApp Cloud APIs

AWARDS, FELLOWSHIPS, CERTIFICATIONS & EDUCATION

Upwork Top Rated Plus Contractor ($93,549 USD Certified 12-Month Earnings · $100k+ Lifetime) — Top 3% Globally **2022 – 2026**

Hult Prize Global Winner ($100,000 USD Award) — Hult International Business School (Selected from 300,000+ competitors) **2021**

Anzisha Prize Fellow (Top 26 Young African Entrepreneurs) — African Leadership Academy & Mastercard Foundation **2021**

MIT Solve & UN75 "The Future We Want" Award — United Nations 75th Anniversary & University World Cup of Startups **2020**

National University of Science & Technology (NUST) — BSc (Hons) Chemical Engineering coursework (departed to scale Farmhut Africa after global accelerator selection) **2018 – 2020**
