MUNYARADZI LLOYD MAKOSA

Product Architect · Senior Full-Stack & AI Systems Engineer · Technical Founder

Cape Town, South Africa · +27 65 894 8676 · munya@munyamakosa.com · munyamakosa.com · github.com/farmhutsoftwareteam · linkedin.com/in/makosa-munya

Senior Full-Stack & AI Systems Engineer, Product Architect, and Technical Founder with **7+ years** of experience shipping production SaaS platforms, native macOS/iOS applications, and multi-agent LLM infrastructure. Creator of open-source AI developer tools (*Atelier*, *Skillshed*, *AbletonMCP Extended*, *Supabase Migration Doctor*), **$100,000 Hult Prize Global Winner** (*Farmhut Africa*, ~300,000 users), **Anzisha Prize Fellow**, and **Upwork Top Rated Plus** engineer ($100,000+ billed, top 3% globally).

PROFESSIONAL EXPERIENCE

Hubflo *(Work by Hubflo / Hubflo Studio & WinPal)* — Remote (US / EU)
AI & Product Engineer — **2025 – Present**

- Architected multi-tenant agentic workflow infrastructure (*Hubflo Studio*) orchestrating Anthropic Claude and OpenAI models with structured tool calling, durable step execution (Inngest), per-user sliding-window rate limiting, RBAC governance, and Slack, Gmail, SmartDocs, and CRM integrations.
- Built and shipped cross-platform mobile and web client applications (*WinPal* and *Work by Hubflo*) using React Native, Expo, Next.js, TypeScript, and Supabase/PostgreSQL, automating sales proposal workflows and workspace context ingestion.

Munga-AI (Munga Plains) — Cape Town / Remote
Lead Software Engineer & Product Architect — **2024 – Present**

- Architected an end-to-end multi-tenant property management, CRM, and financial operations platform in Next.js, TypeScript, Hono, and PostgreSQL (Supabase RLS).
- Engineered automated LLM financial document extraction and multi-currency invoice/receipt reconciliation pipelines integrated with the Wise API and WhatsApp Business Cloud API with human-in-the-loop audit trails.

StrongTrak Inc. *(Golf Circles & MyTrakrr)* — Remote (US)
Lead Mobile & Full-Stack Engineer (Contract) — **2024 – Present**

- Led full-stack and mobile engineering across consumer iOS/Android apps (*Golf Circles*, *MyTrakrr*), owning React Native/Expo client architecture, real-time Supabase backends, and App Store / Play Store release pipelines.

Studio 82 LLC *(s82.studio)* — Remote
Co-Founder & Principal Product Engineer — **2022 – Present**

- Built and shipped **Atelier** (work.munyamakosa.com), a native macOS IDE for Claude Code & Codex written in Swift, SwiftUI, AppKit, and SwiftTerm across **40 signed and Apple-notarized Sparkle releases** (featuring multi-tab PTY sessions, a visual Sub-Agent execution timeline, and an MCP Server Marketplace).
- Built **Skillshed** (skillshed.munyamakosa.com), an 81-skill agent registry with a zero-dependency static prompt-injection scanner (*scan-skills.mjs*) and automated LLM evaluation benchmarks that raised model pass rates from **85% to 97%** on complex PostgreSQL RLS tasks.
- Shipped **4 native iOS applications** to the Apple App Store (*Nurvy*, *Nomm*, *Ten-S*, *Terrace H4*) and 2 macOS audio/AI desktop tools (*Crates*, *SaveMyMusic*).

Upwork — Remote (Global)
Senior Full-Stack & Mobile Engineer (Top Rated Plus — Top 3%) — **2019 – Present**

- Delivered **$100,000+** in verified enterprise and startup engineering contracts across the US, UK, and Europe while maintaining Top Rated Plus status since 2019.
- **Byrna Technologies (NASDAQ: BYRN):** Led frontend engineering for the production Byrna POS retail system across **1,604 billed hours** (12-month sustained delivery).
- **Seal HQ (sealhq.ai) & Client Engagements:** Built AI-powered proposal automation SaaS, large-scale Firebase-to-Supabase PostgreSQL migrations, and **Freyt365** (freyt365.com) fleet finance/fuel software.

Farmhut Africa Harare & Bulawayo, Zimbabwe

Co-Founder, CTO & Product Lead **2019 – 2024**

- Co-founded an AI and WhatsApp-powered agricultural marketplace connecting rural farmers directly to buyers; scaled platform to **~300,000 users** in partnership with the Zimbabwe Farmers Union and raised **$250,000+** in venture and grant funding.
- Won the **$100,000 Hult Prize Global Award (2021)** (selected from 300,000+ competitors globally), named **Anzisha Prize Fellow (Top 26 African Entrepreneurs)**, and recognized by **MIT Solve** and the **UN75 Award**.

Earlier Engineering Roles UK & Zimbabwe

Kwingy (UK) (*Co-Founder & Technical Lead*, 2022–2024: Next.js, React Native, Hono, and Supabase delivery for UK/African clients) · **Raysun Capital** (*Lead Developer — Loan Management System*, 2019–2020: built credit risk scoring and portfolio management in React, Node.js, and PostgreSQL) · **Zimbabwe Yellow Pages** (*Software Developer*, 2018–2019: print-to-digital business directory migration).

OPEN-SOURCE & FLAGSHIP SYSTEMS (GITHUB.COM/FARMHUTSOFTWARETEAM — 69+ PUBLIC REPOS)

- **Atelier (*work-for-claude-code*):** Native macOS SwiftUI/SwiftTerm workbench for Claude Code & Codex; 40 notarized releases, MCP marketplace, Sub-Agent timeline (work.munyamakosa.com).
- **Skillshed (*skillshed*):** 81-skill registry for coding agents with static prompt-injection scanner (*scan-skills.mjs*) and LLM evaluation benchmark suite lifting pass rates from 85% to 97% (skillshed.munyamakosa.com).
- **AbletonMCP Extended (*ableton-mcp-extended*):** 38-tool bidirectional Python Model Context Protocol (MCP) server over TCP sockets for full Ableton Live production and arrangement control via Claude.
- **Supabase Migration Doctor (*supabase-migration-doctor*):** TypeScript CLI diagnostic & repair tool + agent skill that detects and heals PostgreSQL schema-vs-migration drift caused by AI coding agents.
- **The Alexandra (*thealexandra*) & Lead-Eng (*lead-eng*):** 60fps zero-DOM-reflow editorial layout engine built on *@chenglou/pretext*, and a strict codebase-grounded epic/issue scoping skill for Claude Code.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES2024), Swift, Python, SQL (PostgreSQL), HTML5, CSS3, Bash

AI & Agentic Systems: Model Context Protocol (MCP), Anthropic Claude API, OpenAI API, Claude Code & Codex SDKs, LangChain, LLM Evaluation Harnesses, Prompt-Injection Security, RAG & Vector Search

Frontend, Mobile & Desktop: React, Next.js (App Router), React Native, Expo, SwiftUI, AppKit, SwiftTerm, Tailwind CSS

Backend, Data & Infrastructure: Node.js, Hono, Supabase (PostgreSQL, Row-Level Security, Edge Functions), Inngest, Django, Express, Docker, Vercel, Cloudflare, GitHub Actions, Wise & WhatsApp Cloud APIs

AWARDS, FELLOWSHIPS & EDUCATION

Hult Prize Global Winner ($100,000 USD Award) — Hult International Business School **2021**

Anzisha Prize Fellow (Top 26 Young African Entrepreneurs) — African Leadership Academy & Mastercard Foundation **2021**

MIT Solve & UN75 "The Future We Want" Award — United Nations 75th Anniversary & University World Cup of Startups **2020**

National University of Science & Technology (NUST) — BSc (Hons) Chemical Engineering coursework (departed to scale Farmhut Africa following global accelerator selection) **2018 – 2020**
